

THIS WEEK IN FOREST SCHOOL...

Year 3 -
Plants and
Living things

Today we enjoyed being back out in Forest School after pausing for our swimming lessons. We shared the story of Billy's Beetle by Mick Inkpen and the children were given a challenge to find as many small, natural treasures as they could find to fit inside a matchbox. The children did a brilliant job of looking carefully and noticing natural beauty as well as treating nature with care while collecting the items. Some children enjoyed the calm of the outdoor books while others spent time making large and small constructions.
