

THIS WEEK IN FOREST SCHOOL...

Year 3
Ancient
Egyptians

As part of Year 3's topic about the Ancient Egyptians they have been learning about mummification. The children were challenged to mummify a little figure and create a tomb or pyramid for it using natural materials. The children demonstrated imagination and perseverance in doing so. Some children also created a large den that was to shelter them from a sand storm or flooding from the River Nile. The children were also challenged to create an Egyptian Shaduf, which was used as irrigation in the fields. This did prove quite tricky!
