

THIS WEEK IN FOREST SCHOOL...

Year 1 -
Materials

We told the story of the Three Little Pigs and discussed the materials that the pigs used and what the problems of each could have been. The children were then given the challenge to create a shelter in Forest School that would withstand wind. The children chose to work either individually or in a pair to create their structures. The children had to choose whether to use sticks, straw or bricks. Once the children had built their shelter, we tested them by pretending to be the Big Bad Wolf and tried to blow it down. The children worked incredibly hard and were very proud of their creations when they stood firm.

NOLA Focus: I shared my ideas.

Curriculum Focus:
To build a structure strong enough to withstand wind
