

Year 1 -
PSHE
Looking after
the world
and each
other

THIS WEEK IN FOREST SCHOOL...

NOLA focus: I
used the
environment safely

Curriculum focus:
PSHE - how we
can look after each
other and the
world.

We started our session today reading Superworm by Julia Donaldson. Together we worked as a team stamping our feet to charm the worms to the surface of the ground. Some children found some worms and used their mathematical knowledge to measure and compare them. Imagination and perseverance were demonstrated when creating a trap for wizard lizard, the children could articulately describe how it worked. Some children showed care for the environment and wildlife by making bug houses, where they carefully considered the best place to put it on site.
