

THIS WEEK IN FOREST SCHOOL...

Year 1 -
Autumn

Today we started our session by sharing the story Pumpkin Soup by Helen Cooper. The children were developing their observational skills by completing an autumn scavenger hunt and using microscopes to look closely at the fallen leaves. Some children created nature bracelets by finding beautiful, coloured items while others developed their writing skills by making lists of items needed to make a bug hotel. They inspired each other to make one at home during half term.
