

THIS WEEK IN FOREST SCHOOL...

Year 1 -
Plants

The children started our session today at their adopted tree. The children made bark rubbings and created charcoal sketches of their chosen tree. The children looked carefully and noticed patterns in the bark. We then shared the story of Bert's Garden by Karin Celestine, from the story we had inspiration to build a smaller bug house. The children thought carefully about the types of creatures that might come and live in it. The children also worked collaboratively to create a natural picture of the world.
