

# THIS WEEK IN FOREST SCHOOL...

*Year 1 -  
Where we  
live.*

*Today we began by sharing a few pages of Martha maps it out. The children thought about the place where they live in terms of location and what sort of building they live in. The children made homes using natural materials and demonstrated great team work and perseverance in their construction. We also noticed lots of worms, the children displayed a high level of curiosity and made safe homes for them too, showing a kindness and respect to wildlife and their habitat.*
