

THIS WEEK IN FOREST SCHOOL...

Year 1 -
Science -
Animals

Today we linked our learning in Forest School to our PSHE, which is 'How we can look after each other and our world?' We read the story Tidy which is all about Badger cleaning up his environment only to find he went too far! We thought about how we could look after our environment, especially looking after the birds in winter. We made birdfeeders and bird baths as well as creating bird art using natural materials. The children thought carefully about ways we can respect our school environment.
