

THIS WEEK IN FOREST SCHOOL...

Year 1 -
Science -
Animals

In PSHE we read the story 'Someone crunched Colin' which is about the impact of dropping litter on various creatures. It followed on very well from our worship theme of respecting our environment. When we got to Forest School we noticed there was lots of litter: some of us used the litter pickers to pick up the rubbish and sort it. We had a lot of fun and used lots of coordination and concentration to pick up the litter and place in the black bags. Others made bird feeders to show care for the birds in winter. Some children used hay to fill plant pots to add to the bug hotel to help the smallest of creatures through the winter months.
