

Year 2 - Living Things

THIS WEEK IN FOREST SCHOOL...

We started by reading the story Home by Patricia Hegarty. We discussed the different types and names of animal homes. The children worked together as a team to create large and small scale shelters. The children demonstrated problem solving skills and perseverance in the construction. They then also used their imaginations to create stories to explore in a group. Some children also took up the matchbox challenge. The children carefully and consciously searched for miniature nature treasures to fit into a matchbox. They then counted how many natural treasures they found.
