

THIS WEEK IN FOREST SCHOOL...

Year 2

Castles and Fairy
Stories

Today we shared another alternative story - Jim and the Beanstalk. The children have been able to make links between the stories we have read in Forest School and those they have been learning about in class. Children had a go at measuring items using different methods such as tape measures and trundle wheels. The children also had a go at using charcoal to create illustrations inspired by the book. Some children also created healthy feasts for the giant.
