

THIS WEEK IN FOREST SCHOOL...

Year 2

*Animals, habitats
and conservation*

Today our focus was about birds and their nests. The children had a go at making nests using natural materials and some even made birds using leaves. We also noticed there were nests in the trees and used mirrors to look up at them.

Some children worked together as a team to collect leaves that were then made into boats and the ocean. This was inspired by the book they are using in their English lessons.
